Contents

PART 1

i Editorial

1 Diurnal changes in water content of the stems of apple trees, as influenced by irrigation
D. W. Brough, H. G. Jones & J. Grace

9 Differential Na_2SO_4 tolerance in tobacco plants regenerated from Na_2SO_4-grown callus
E.-C. Pua & T. A. Thorpe

17 Restitution of polarity in statocytes from centrifuged roots
M. Wendt & A. Sievers

25 Osmotic responses of unicellular blue-green algae (cyanobacteria): changes in cell volume and intracellular solute levels in response to hyperosmotic treatment
R. H. Reed, D. L. Richardson & W. D. P. Stewart

33 Contribution of osmotic adjustment to the dehydration tolerance of water-stressed pigeonpea (*Cajanus cajan* (L.) millsp.) leaves
D. J. Flower & M. M. Ludlow

44 Nitrate uptake into *Pisum sativum* L. cv. Feltham First seedlings: commonality with nitrate uptake into *Chara corallina* and *Hordeum vulgare* through a substrate cycling model
C. E. Deane-Drummond

49 Local climate, topography and plant growth in Lathkill Dale NNR. I. A twelve-year summary of solar radiation and temperature
I. H. Rorison, F. Sutton & R. Hunt

57 Local climate, topography and plant growth in Lathkill Dale NNR. II. Growth and nutrient uptake within a single season
I. H. Rorison, P. L. Gupta & R. Hunt

65 Photosynthesis and the influence of CO_2-enrichment on $\delta^{13}C$ values in a C_3 halophyte
R. D. Guy & D. M. Reid

73 Visualization of mitochondria and nuclei in living plant cells by the use of a potential-sensitive fluorescent dye
M. A. Matzke & A. J. M. Matzke

79 Endogenous ion currents traverse growing roots and root hairs of *Trifolium repens*: short communication
A. L. Miller, J. A. Raven, J. I. Sprent & M. H. Weisenseel

85 Book review

PART 2

87 Relationship between chloroplast structure and O_2 evolution rate of leaf discs in plants from different biotopes in South Finland
E.-M. Aro, E. Rintamäki, P. Korhonen & P. Mäenpää

95 Physiological implications of the Münch–Horwitz theory of phloem transport: effects of loading rates
J. D. Goeschl & C. E. Magnuson

103 Experimental tests of the Münch–Horwitz theory of phloem transport: effects of loading rates
C. E. Magnuson, J. D. Goeschl & Y. Fares

111 Sealed lysimeters for the direct estimation of dinitrogen fixation by grain legume crops
A. P. Sims, D. J. Barber, B. F. Folkes & D. Walls

121 Reversal of ethylene action on cocklebur seed germination in relation to duration of pre-treatment soaking and temperature
Yohji Esashi, Yukio Saijoh, Satoko Ishida, Hiroshi Oota & Kimiharu Isizawa

127 Metabolic response of *Medicago sativa* L. and *Lotus* corniculatus L. roots to anoxia
A. L. Barta

133 Turgor-sensitive transport in developing seeds of legumes: the role of the stage of development and the use of excised *vs.* attached seed coats
P. Wolswinkel & A. Ammerlaan

141 Thioproline-induced accumulation of proline in barley leaf sections
N. Beffagna, P. Pesci & M. Radice

145 Compatible solutes and their effects on phosphoenolpyruvate carboxylase of C_4-halophytes
Y. Manetas, Y. Petropoulou & G. Karabourniotis

153 Inheritance of cyanide-resistant respiration in two cultivars of pea (*Pisum sativum* L.)
M. E. Musgrave, I. C. Murfet & J. N. Siedow

157 Problems with the application of quin-2-AM to measuring cytoplasmic free calcium in plant cells
R. J. Cork

163 Book review

PART 3

165 Optimization of red light-induced elongation in *Avena* coleoptile sections and properties of the phytochrome-mediated growth response
J. R. Shinkle & W. R. Briggs

175 The utilization of bicarbonate ions by the macroalga *Ascophyllum nodosum* (L.) Le Jolis
A. M. Johnston & J. A. Raven

185 Involvement of calcium ion in turgor regulation upon hypotonic treatment in *Lamprothamnium succinctum*
Y. Okazaki & M. Tazawa

191 Influence of polishing and abrasion on diffusive conductance of leaf surface of *Festuca arundinacea* Schreb.
C. E. R. Pitcairn, C. E. Jeffree & J. Grace

197 Water stress effects on guard cell anatomy and the mechanical advantage of the epidermal cells
R. D. Spence, H. Wu, P. J. H. Sharpe & K. G. Clark

203 Photosynthetic electron transport and establishment of an associated transthylakoid proton electrochemical gradient during development of the wheat leaf
A. N. Webber, N. R. Baker, C. D. Paige & M. F. Hipkins

209 A novel approach and a fully automated microcomputer-based system to study kinetics of NO_3^-, NO_2^-, and NH_4^+ transport simultaneously by intact wheat seedlings
S. S. Goyal and R. C. Huffaker

217 Comparative ultrastructure and gas exchange characteristics of the C_3–C_4 intermediate *Neurachne minor* S. T. Blake (Poaceae)
P. W. Hattersley, Suan-Chin Wong, S. Perry & Z. Roksandic

235 Book reviews

PART 4

239 Extensin—a major cell wall glycoprotein: review
L. G. Wilson & J. C. Fry

261 Comparative effects of light during growth on the photosynthetic properties of NADP-ME type C_4 grasses from open and shaded habitats. I. Gas exchange, leaf anatomy and ultrastructure
D. A. Ward & H. W. Woolhouse

271 Comparative effects of light during growth on the photosynthetic properties of NADP-ME type C_4 grasses from open and shaded habitats. II. Photosynthetic enzyme activities and metabolism
D. A. Ward & H. W. Woolhouse

279 Temperatures and thermal tolerances for cacti exposed to high temperatures near the soil surface
P. S. Nobel, G. N. Geller, S. C. Kee & A. D. Zimmerman

289 The kinetics of photoinhibition of the photosynthetic apparatus in pea chloroplasts
M. Bradbury & N. R. Baker

299 Membrane deletion during plasmolysis in hardened and non-hardened plant cells
A. M. Johnson-Flanagan & J. Singh

307 Nitrate accumulation and growth of *Aster tripolium* L. with a continuous and intermittent nitrogen supply
A. W. Stienstra

315 Stomatal conductance and transpirational responses of field-grown cotton to ozone
P. J. Temple

323 Arrhenius plots and the involvement of thermotropic phase transitions of the thylakoid membrane in chilling impairment of photosynthesis in thermophilic higher plants: commissioned opinion
B. Martin

333 C_4 acid decarboxylation type in *Eragrostis* (Poaceae): patterns of variation in chloroplast position, ultrastructure and geographical distribution
H. D. V. Prendergast, P. W. Hattersley, N. E. Stone & M. Lazarides

345 Flowering of *Pharbitis nil* is controlled by an endogenous semidian rhythm: short communication
R. W. King, L. T. Evans & O. M. Heide

349 Diurnal osmotic cycling in cotton leaves as an indicator of source–sink balance: short communication
J. W. Radin, J. R. Mauney & G. Guinn

353 Book reviews

PART 5

359 Comparative ecophysiology of CAM and C_3 bromeliads. I. The ecology of the Bromeliaceae in Trinidad
J. A. C. Smith, H. Griffiths & U. Lüttge

377 Comparative ecophysiology of CAM and C_3 bromeliads. II. Field measurements of gas exchange of CAM bromeliads in the humid tropics
U. Lüttge, K.-H. Stimmel, J. A. C. Smith & H. Griffiths

385 Comparative ecophysiology of CAM and C_3 bromeliads. III. Environmental influences on CO_2 assimilation and transpiration
H. Griffiths, U. Lüttge, K.-H. Stimmel, C. E. Crook, N. M. Griffiths & J. A. C. Smith

395 Comparative ecophysiology of CAM and C_3 bromeliads. IV. Plant water relations
J. A. C. Smith, H. Griffiths, U. Lüttge, C. E. Crook, N. M. Griffiths & K.-H. Stimmel

411 Comparative ecophysiology of CAM and C_3 bromeliads. V. Gas exchange and leaf structure of C_3 bromeliad *Pitcairnia integrifolia*
U. Lüttge, B. Klauke, H. Griffiths, J. A. C. Smith & K.-H. Stimmel

PART 6

421 Gravity can induce epinastic bending of isolated leaves
W. Hensel & M. Kruft

427 Growth response to step-decrease in nutrient availability in small birch (*Betula pendula* Roth)
A. J. S. McDonald, T. Lohammar & A. Ericsson

433 Dependence of starch storage on nutrient availability and photon flux density in small birch (*Betula pendula* Roth)
A. J. S. McDonald, A. Ericsson & T. Lohammar

439 Water relations of compound leaves and phyllodes in *Acacia koa* var. *latifolia*
D. H. Hansen

447 Survival of *Cornus sericea* L. stem cortical cells following immersion in liquid helium
C. L. Guy, K. J. Niemi, A. Fennell & J. V. Carter

451 Tissue water relations and leaf growth of tropical corn cultivars under water deficit
M. A. Sobrado

459 Plant cuticles sorb lipophilic compounds during enzymatic isolation
J. Schönherr & M. Riederer

467 Turgor and osmotic relations of the desert shrub *Larrea tridentata*
F. C. Meinzer, P. W. Rundel, M. R. Sharifi & E. T. Nilsen

477 Adaptation to chilling: photosynthetic characteristics of the cultivated tomato and a high altitude wild species
D. Yakir, J. Rudich & B.-A. Bravdo

485 The soluble carbohydrates of *Euglena gracilis*—their identity and response to increased external solute concentration: short communication
M. R. Dwyer

491 Effect of calcium ion on cytoplasmic streaming during turgor regulation in a brackish water charophyte *Lamprothamnium:* short communication
Y. Okazaki & M. Tazawa

495 Differential effects gabaculin and laevulinic acid on protochlorophyllide regeneration: short communication
D. P. Caiger, S. A. Pearson, A. J. Smith & L. J. Rogers

501 Quantitative short-term uptake of inorganic phosphate by the *Chara hispida* rhizoid: short communication
R. J. Box

507 Book reviews

PART 7

511 The partitioning of nitrate assimilation between root and shoot of higher plants: mini-review
M. Andrews

521 Characterization of alternating-temperature regimes that remove seed dormancy in seeds of *Brachiaria humidicola* (Rendle) Schweickerdt
C. O. Goedert & E. H. Roberts

527 Catabolism of indole-3-acetic acid in chloroplast fractions from light-grown *Pisum sativum* L. seedlings
B. H. Brown, A. Crozier & G. Sandberg

535 The effect of root temperature on the uptake of nitrogen and the relative size of the root system in *Lolium perenne*. I. Solutions containing both NH_4^+ and NO_3^-
D. T. Clarkson, M. J. Hopper & L. H. P. Jones

547 Crassulacean acid metabolism in the epiphytic ferns *Drymoglossum piloselloides* and *Pyrrosia longifolia*: studies on responses to environmental signals
B. L. Ong, M. Kluge & V. Friemert

559 Effects of NaCl on ion relations and carbohydrate status of roots and on osmotic regulation of roots and shoots of *Atriplex amnicola*
W. D. Jeschke, Z. Aslam & H. Greenway

595 Accumulation and subcellular distribution of cations in relation to the growth of potassium-deficient barley
R. A. Leigh, M. Chater, R. Storey & A. E. Johnston

605 Nitrate and reduced-N concentrations in the xylem sap of *Stellaria media, Xanthium strumarium* and six legume species: short communication
M. Andrews

609 Photoperiod and photosynthetic capacity in *Lotus scoparius:* short communication
J. Comstock & J. R. Ehleringer

571 Effects of external NaCl on the growth of *Atriplex amnicola* and the ion relations and carbohydrate status of the leaves
Z. Aslam, W. D. Jeschke, E. G. Barrett-Lennard, T. L. Setter, E. Watkin & H. Greenway

581 Prolonged chilling under moderate light: effect on photosynthetic acitivity measured with the photoacoustic method
D. Yakir, J. Rudich, B. A. Bravdo & S. Malkin

589 Effect of NaCl and polyethylene glycol on solute content and glycosidase activities during germination of lentil seeds
P. Corchete & H. Guerra

PART 8

613 Chilling sensitivity in higher plants: the role of phosphatidylglycerol: opinion
D. G. Bishop

617 Effect of nitrate–nitrogen limitation on photosynthesis of the diatom *Phaeodactylum tricornutum* Bohlin (Bacillariophyceae)
B. A. Osborne & R. J. Geider
627 Models of carbon metabolism in C_3–C_4 intermediate plants as applied to the evolution of C_4 photosynthesis
M. Peisker
637 Gravitropic responses of wild-type and mutant strains of the moss *Physcomitrella patens*
G. I. Jenkins, G. R. M. Courtice & D. J. Cove
645 Effects of sodium chloride on tobacco plants
T. J. Flowers, S. A. Flowers & H. Greenway
653 Cations stimulate proton pumping in *Catharanthus roseus* cells: implications of a redox system?
M. Belkoura, R. Ranjeva & G. Marigo
657 Some water-related physical properties of maize root-cap mucilage
F. C. Guinel & M. E. McCully
667 Resistance of fully imbibed tomato seeds to very high salinities
E. Kurth, A. Jensen & E. Epstein
677 Erythrosin B as an effective inhibitor of electrogenic H^+ extrusion: short communication
M. C. Cocucci & E. Marré
681 Field water relations of a compass plant, *Lactuca serriola* L.
K. S. Werk & J. Ehleringer

PART 9

685 Chilling injury: a plea for uniform terminology: opinion
J. K. Raison & J. M. Lyons
687 Ethylene and ethane production in response to salinity stress
A. Chrominski, M. A. Khan, D. J. Weber & B. N. Smith
693 Determination of free space, growth, solute concentrations and parameters of water relations of suspension-cultured tobacco cells
M. Dracup, J. Gibbs, C. E. E. Stuiver, H. Greenway & T. J. Flowers
703 The size and turnover of the glycerol pool in *Dunaliella*
A. Goyal, R. McC. Lilley & A. D. Brown
707 Comparison of lag times in plant physiology
T. C. G. Rich & H. Smith
711 A field portable gas-exchange system for measuring carbon dioxide and water vapour exchange rates of leaves during fumigation with SO_2
C. J. Atkinson, W. E. Winner & H. A. Mooney
721 Osmotic sensitivity in relation to salt sensitivity in germinating barley seeds
R. D. Bliss, K. A. Platt-Aloia & W. W. Thomson
727 The inhibitory effect of NaCl on barley germination
R. D. Bliss, K. A. Platt-Aloia & W. W. Thomson
735 A ^{13}C method of estimation of carbon allocation to roots in a young chestnut coppice
L. Mordacq, M. Mousseau & E. Deleens
741 Environmental influences on the productivity of three desert succulents in the south-western United States
P. S. Nobel & T. L. Harstock
751 Influence of stomatal distribution on transpiration on low-wind environments
J. R. Foster & W. W. Smith
761 Book reviews
765 Instructions to contributors
